Summary of Key Discussions and Resolutions from the AGM (Extract)

1. Tenure of Office for Executive Council and Committees

- Concerns were raised that the current two-term limit of three years each could hinder the introduction of new perspectives due to the fast-evolving nature of the technology sector. It was argued that shorter terms might encourage innovation and broader participation.
- Reference was made to the ICTAZ Act, particularly Part 7 Section 40(4), which stipulates a three-year tenure for the Ethics Committee, aligning it with the Executive Council's tenure. It was noted that such provisions could not be altered by the AGM.
- The historical context of tenure debates was mentioned, with reminders that similar motions had been previously voted on and resolved in past AGMs.
- Members were urged to separate individual interests from constitutional amendments and focus on long-term institutional goals. It was emphasized that the Ethics Committee serves a unique legal oversight function and was originally intended to operate independently from the Executive Council.
- A vote was conducted, and it was **RESOLVED** that the three-year tenure of office for the Executive Council and Committees would remain unchanged.
- A related motion to bar office bearers from seeking a third term in the same office was also voted on and left unchanged. It was clarified that while Executive Council members may seek election in different roles, the presidency is typically not succeeded by service in other positions.

2. Voting Rights and Participation

- A proposal was made for all fully paid-up members to be allowed to vote, whether physically present or online. Concerns were raised regarding unclear communication, delayed invoicing, and technical challenges in the membership system that affected eligibility to vote.

- The Registrar clarified that electronic voting was to be conducted at the AGM, as advised by the Electoral Committee. It was resolved that proposed changes regarding voting formats and participation should undergo the constitutional review process.
- The distinction between physical, virtual, and hybrid AGMs was discussed, with clarification that the current constitution accommodates either physical or virtual meetings but not hybrid formats. It was reiterated that payment of conference fees did not determine eligibility to vote.

3. Fellowship Criteria

- A proposal was submitted to revise the criteria for attaining Fellow status to require a minimum of a Master's degree in Computer Science and at least 10 years of work experience. The matter was acknowledged as extensively debated in previous AGMs.
- Suggestions were made to broaden consideration beyond academic qualifications to include other relevant fields and professional contributions. The matter was deferred to the Constitution Review Process.

4. Constitution Review Process

- A member, Twiza Siwale, proposed a motion to defer all proposed constitutional amendments to a Constitution Review Process. Jussab Kara seconded the motion. Following the proposal and secondment, the meeting **RESOLVED** to defer all constitution amendments to a Constitution Review Process.
- Further, the meeting **RESOLVED** that future deliberations would require the participation of a minimum of 200 members for any proposed amendments to proceed. This resolution was passed following a proposal by Musonda Kapaya which was seconded Binimbi Chellah.
- The meeting also **RESOLVED** to "freeze" any submitted amendment that was not deliberated on within a set period, to ensure accountability and avoid repetitive, unproductive debates. The resolution was made following a proposal by Mutale Moyo which was seconded by Joseph Wamulome.

13. DISSOLUTION OF THE ICTAZ EXECUTIVE COUNCIL
