THEME:

ZAMBIA'S \$60 BILLION ECONOMY BY 2031:
POWERED BY TECHNOLOGY AND AI

Greetings Members and Esteemed Stakeholders,

It is with profound gratitude that I welcome each and every one of you to 2026.

The Executive Council, Management, and Staff are once again excited to announce the upcoming ICTAZ Tech Conference and Trainings scheduled to take place from 17 to 20 March 2026 at the iconic Avani Resort in Livingstone. Traditionally, we have convened in Livingstone for our Annual General Meetings, complemented by pre AGM conferences, trainings, and an Expo. Colleagues, our conference has grown significantly and has now outgrown the AGM framework. As a result, effective 2026, we have rebranded this flagship event as the **ICTAZ Tech Conference**.

In keeping with tradition, this will be an annual event and for now, until communicated otherwise, it will continue to be followed by the AGM.

This year, we have an exciting programme lined up as we convene under the theme: **Zambia's 60 Billion Dollar Economy by 2031: Powered by Technology and AI**.

This theme boldly affirms that Zambia's ambitious economic growth will be driven by technology. The Government has declared and remains resolute in its goal to double the economy to 60 billion United States dollars by 2031.

As technology professionals, we clearly understand our critical role in this national agenda. Across the globe, technology is powering economies from the United States to emerging markets, touching virtually every sector of life and industry. For Zambia to achieve this ambitious target, a deliberate and coordinated effort is required, and the ICT profession has a major role to play in enabling this transformation.

Recent performance underscores this reality. As we await the official economic performance figures for 2025, 2024 statistics revealed that the ICT sector was the fastest growing industry in Zambia and the leading contributor to economic growth. According to the Zambia Statistics Agency, the ICT sector contributed 3.9 percent, followed by Mining and Quarrying at 2.1 percent, Agriculture, Forestry and Fishing at 1.1 percent, Manufacturing at 0.6 percent, and Transportation and Storage at 0.5 percent.

These figures highlight the immense opportunities available to our members. We see technology driving transformation across sectors including Financial and Insurance Services, Mining, Agriculture, Manufacturing, and many others.

As we gather, our objective is to elevate conversations and position ourselves to deliver through engaging panel discussions, seasoned thought leaders, rich networking opportunities, and platforms for business showcasing and collaboration. Notably, this year introduces Continuous Professional Development (CPD) points, delivering tangible professional value to participants. Pre-conference training will award 8 CPD points, the conference will award 14 CPD points, and the AGM will award 5 CPD points.

I therefore call upon our long standing partners and supporters, as well as new ones, to join us on this journey. If you have not yet done so, we invite you to get in touch and partner with us as we deliver this landmark event.

We look forward to welcoming you to Livingstone for what promises to be a transformative ICTAZ Tech Conference and Trainings 2026.

Clement Sinyangwe (Dr.)
President

The logo for the 2026 ICTAZ Tech Conference. It features a blue square with a white '2026' inside, followed by 'ICTAZ' in white. Below this, the word 'Tech' is written in a large, white, sans-serif font, and 'Conference' is written below it in a smaller, white, sans-serif font. To the left of 'Tech' is a green square with a white 'T' inside.

2026 ICTAZ Tech Conference

**The digital
revolution isn't
just coming**
it's here to build the new Zambia.

Join the 2026 ICTAZ Tech Conference as we convene the nation's leading technology minds, industry leaders, policymakers and innovators driving Zambia's economic transformation.

Convened under the theme **“Zambia's USD 60 Billion Economy by 2031: Powered by Technology and AI,”** this year's Tech Conference moves beyond dialogue to decisive action. The programme will provide a high-level examination of how AI-driven solutions, digital infrastructure, and innovation-led policy can accelerate national productivity and strengthen Zambia's global competitiveness.

Be at the centre of strategic conversations that align policy, talent, and technology—transforming digital potential into measurable and sustainable economic growth.

Why Attend?

Shape Zambia's \$60 Billion Digital Economy

Join national conversations driving Zambia's economic vision for 2031. Engage with leaders and innovators on how technology and AI are accelerating growth across key sectors.

Growth through Technology & AI

Explore new business models, partnerships and opportunities that support scalability, competitiveness and revenue growth through targeted B2B and B2C engagements.

Earn Mandatory CPD Points

Enhance your professional credentials, fulfill regulatory or certification requirements while expanding your career prospects and earn Continuing Professional Development (CPD) points by attending the event.

Position Your Brand in a Tech Space

Showcase your organisation within Zambia's evolving digital and AI ecosystem. Sponsors and exhibitors gain visibility, quality leads, and strategic exposure to decision-makers and investors.

Professional Networking

Network with ICT professionals, entrepreneurs, policymakers, and innovators shaping Zambia's technology-led economic future through conference sessions and the mini-expo.

Engage, Collaborate and Do Business

The mini-expo enables focused B2B and B2C interactions, fostering collaboration, deal-making, and partnerships that support Zambia's journey to a \$60 billion economy.
